

## Paratransit & Personal Mobility Vehicles Making Individual Activities More Flexible

For supporting Inhabitants' activities, environmentally friendly and more convenient transport needs to be spread, especially in the generation of energy saving or in the aging society.

The Paratransit & Personal Mobility Forum (PPMF) in **JTPA** has held the exhibition twice, so far, to introduce advanced personal vehicles, including the electric trike and electric vehicles for aged or physically disabled persons.

**Advanced Personal Vehicles** (shown during the 2012 PPMF Exhibition in Himeji)
